- * Plastic cards or tags
- * Labels
- * CDs
- * Variable thickness ***in the same stack!***

*Great for feeding a wide variety of
pieces into:*

Ink jet equipment

Tabbing and labeling machines

Folders

Printing equipment

Buckle Separation™ Technology A Straight Shooter Exclusive!

Straight Shooter introduced this revolutionary method of separation in 2004. Other feeders use a high friction “nip” point to separate documents. Straight Shooter eliminates the “nip” point for smoother feeding without the jams!

Straight Shooter takes friction feeding to a new level with these exclusive features:

- * Solid, heavy-duty paper guides that extend **ALL THE WAY THROUGH THE FEEDER**
- * Repositionable Feed Belts -- Lets you customize the feeder for every piece!
- * Independently Adjustable Separators... as many as you like!
- * **ALL** belts can be replaced in minutes!
- * Heavy duty shafts and bearings for long life.
- * Four high friction feed belts **AND** three traction belts for additional friction
- * Use as many separators and belts as each job requires
- * Completely tool-less setup!
- * Clean, uncluttered design – easy to setup, easy to move, easy to service!

Also available:

- * Adjustable height floor stand
- * Table stand
- * Card option for small media
- * Single shot and batch models
- * C-20 for wide documents
